

## Summary

Information on North Carolina buildings and sites available for lease or purchase can be acquired through the Buildings & Sites button on the ACCESSNC website. The Buildings & Sites web page offers various search options, including building name, geographic area, location of interstates, and building and specialty types.

From that search appear the names of the buildings or sites, along with a map of the properties' locations. At this level, more detailed information is available for each property, including availability and price, utilities, building features, demographics, contact information as well as the option of creating various custom reports. Visit [www.nccommerce.com](http://www.nccommerce.com) and click on the ACCESSNC logo.
